

Are you:

- > A female athlete from any sport?
- > Aged 18+ years?
- > Competing in national or international competitions?
- > Willing to participate in an AIS study?

If you answered 'yes' to these four questions, then AIS Biomechanics would love to hear from you!

We are looking for high-performance female athletes to take part in a 10-minute online survey on breast pain, breast injury and breast support during sport. You can access the survey on myAISplaybook or at bit.ly/2g2BOPm
